

## **Green Roofs:**

Green roofs are vegetated roofs with soil amendment that help to treat runoff at its source. Green roofs also help to improve air quality.

If you are interested in installing a green roof, please speak with a professional. Green roofs must follow all guidelines offered in the Maryland Stormwater Design Manual, chapter 5. The maximum reimbursement for this practice is \$1200, with a minimum green roof area of 300 square feet or ¼ of the roof.

Best Management Practice (BMP)	Lot Size/Type	Drainage Area (ft <sup>2</sup> )	Volume (ft <sup>3</sup> )	Other Conditions	Eligible for Credit and Reimbursement?	Reimbursement Cap
<b>Green roof</b>	Condominium or Townhouse	300 or ¼ roof	n/a	Must be installed by certified contractor and comply with Maryland Department of Environment Stormwater Design Manual, chapter 5 (2000)	Yes	\$1,200
	Single Family Home on ¼ Acre or Less					
	Single Family Home on Greater Than ¼ Acre					

*What does this mean for me?*

You spent \$9,000 on a green roof installed by a certified contractor; we would award you the \$1,200 maximum reimbursement.
